

For those of you who were not able to attend the reunion, the following is a one-page description of the various activities offered during the day. Don't think anybody was bored!

On Going Slide Show:

A "silent" slide show will be continuously projected throughout the day showing: a.) grade school and junior high photos, b.) our outdoor 30th reunion, c.) our 40th reunion at Sylvan Dale Ranch, and d.) various newspaper clippings about a several classmates.

45 RPM record listening station:

The 45-rpm record inserted into the jacket of the 1964 Chieftain is available for listening "and viewing" on a laptop. Headphones are provided so others will not be disturbed. The voice and music from the record are played in sync with a slideshow presentation that displays the name of the speaker and what they are saying. Written instructions are provided for easy use. Total time to listen to both sides of the record is approximately 12 minutes. Thanks to Dennis Steiner for providing the files for the slide show and the 45 RPM record.

Who Lived Where In 1950 contest:

This will truly be your last high school test! This is an open book test! You can talk to a many people as you want to help you with the answers. There are only 36 questions on the test. Each question contains specific information about a classmate as to where they lived in 1950. The test provides the first names of their father and mother, the fathers occupation, the street address, as well as the city and state where they lived in 1950. The good news is we are also giving you all the answers! You just need to match the names to the correct 1950 residence.

This contest is only open to the 53 alumni attending the reunion. Sorry, no spouses or guests can take the test, but they may help any alum obtain the answers. Reason for this limitation, we want our alumni to win either the \$50 first prize, or the \$30 second prize.

The agenda on your tables provide the information when and where you pick up the test kit. The kit consists of the 3-page test, a one page "Possible Answer" sheet, and a pencil.

A 16-player corn hole tournament :

We have all the players needed (8 men and 8 women) to play three rounds of corn hole, using the "Class of '64 rules and regulations" as defined by Dwayne. This is a single elimination tournament with a cash prize for everyone who plays. Obviously, the winning teams get more money than the teams that come is second. The tournament may, or may not be held, based on the weather throughout the afternoon. If we can play at least the first round outside, I think we can complete the last two rounds inside. We have 8 men and 8 women who are anxious to win some of the \$125. So, we will play it by ear, based on the weather, and be flexible with respect to the schedule.

Chatting among friends:

These are ongoing activities: For the ladies, this consists of indoor and outdoor lawn chair chatting in order to you catch up with old friends. For the men, it is much simpler. It just consists of sitting on anything that doesn't break and bull shitting with whomever will listen. Sorry, no cash prizes for these activities!

Conclusion:

We have decided to end the event at 6:30 pm instead of 7:00. This allows those that want to leave early can, so they can be well on the road before it gets dark.
